

# M&T | Magnetic Door Closing System

## Dimensions

M&T Magnetics is a revolutionary magnetic system that enables doors to open easily and close perfectly. Strong magnets in the door and frame allow for perfectly smooth and noiseless closing, holding the door closed without the need for a lock. Intended primarily for internal doors, the range also includes mini locks that can be added where extra privacy is needed

**Material** Metal Body  
Neodymium Magnets

**3 Finishes** Satin Stainless Steel  
White  
Black

**Warranty** Surfaces: **3 years**  
Function: **30 years**

**Application** Designed for interior doors for heights up to 3m and for door weights up to 200kg. Efficiency can be increased by using 2 or more magnets.
