' We are between Arts, Design & Architecture, with our designs we create a more beautiful and functional world '

JOLIE®

With over 50 years of experience between them in the field of Design Hardware, two business friends, Belgian Ben Evens and Dutchman Ferry van Herwijnen, established JOLIE, the new kid on the block.

OUR CLEAR TARGET

New inspiration and creation, exceptional quality in solid brass, made by artisans. For us, nothing is the same as there are so many. We realized the need for quality, for new designs, for something special. We started working on our fresh design-ideas, focusing on every small detail that would simply make a difference.

EXPERTLY CRAFTED

All products are manufactured in our factory, working with traditional sand casting production. With the highest standard of precision quality machinery we create handmade products using the world's best artisans. Our design, production, warehouse and service team create perfection and control, they oversee the creations from production until final shipment to our customers. They are able to work through the full process, from casting, forging, grinding, trimming, milling, drilling, turning, polishing, pitting, coating, lacquering up to packing, stocking, marketing and more.

OUR RESULT

New designs with character, an inspiring collection of brass accessories for cabinets, doors and bathrooms. To enable architects, designers and end-users to use JOLIE throughout the entire project, created to unify the look in every different space or room.

WELCOME

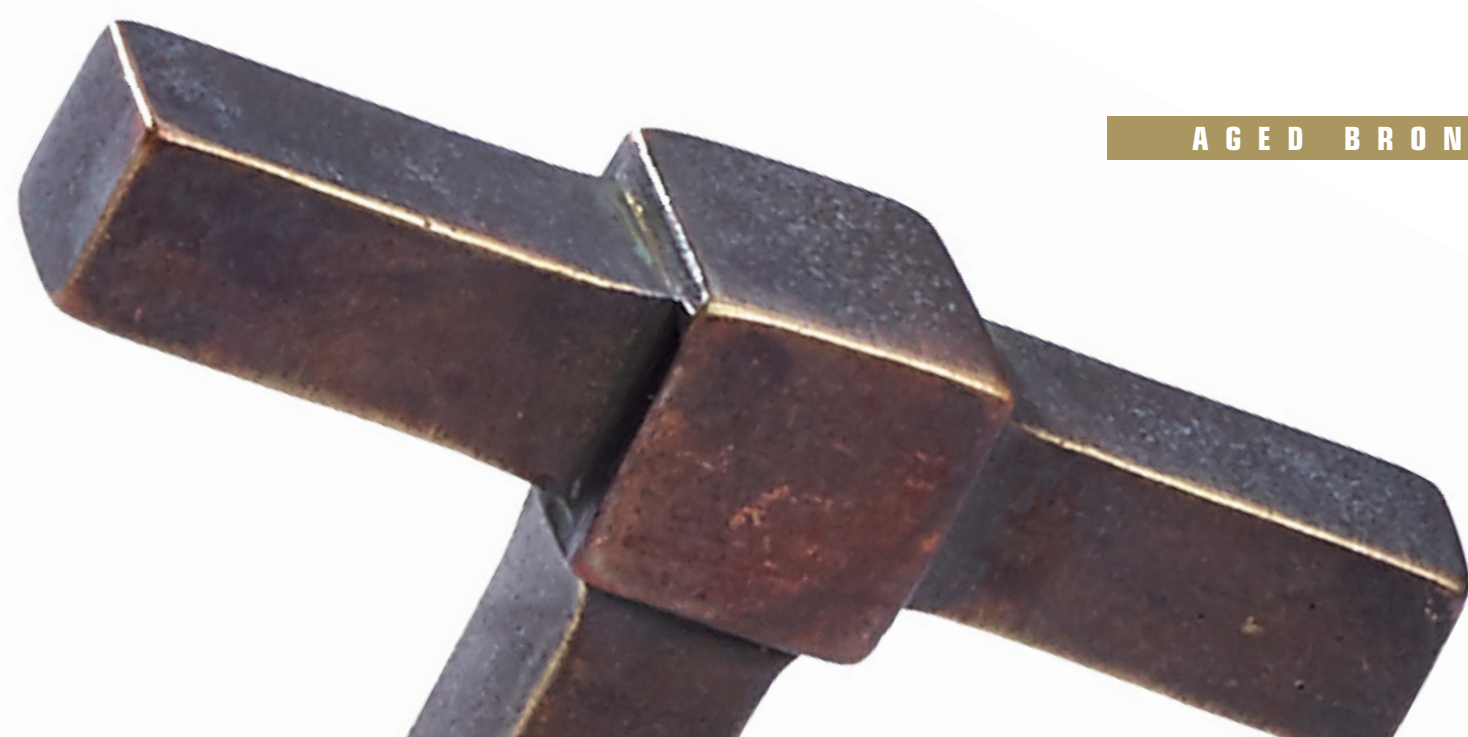

To our new collections including our latest designs by Roel Vandebeek (Its a Roel), with new ranges Ville, Anvil & Liv for all projects, doors, windows, and cabinetry. Quality, uniqueness, immediate stock availability and customer service are our companies key-points.

' Designs and collections made for world's finest projects '

As a designer, I always want to be involved in the client's philosophy and immediately got a great feeling with Jolie.

How Jolie market their brand is unique as is the way they work the brass into stylish creations with great care and forethought. This gives long lasting desirability to the group of users who love the handmade designs.

My aim is to continue their great brand vision and to make it even more successful.

As a result Jolie will introduce three new collections which I have designed for them with the following focal points, proportion, image-value, practicality, emotion, open character, uniqueness and cuddliness and pleasing to the eye.

My first collection "Ville" shows a formal transition between the existing J-designs and the two other series that I have designed.

It is my art that brings innovation without undermining the philosophy. This renewal is continued in the new collections 'Anvil' and 'Liv', a surprising and new addition.

The handles of Jolie are complementary, but not dominant.

"Handles must play an excellent supporting role, not a leading one !"

DESIGN BY ROEL VANDEBEEK

Solid brass, sand casting, handmade by artisans

The Ville collection consists of two sizes of cabinet handles, one cabinet knob, lever handle and a window handle.

This eye-catching design compliments the Jolie family Evoke and Core. The door hardware is usable with the Evoke doorstop.

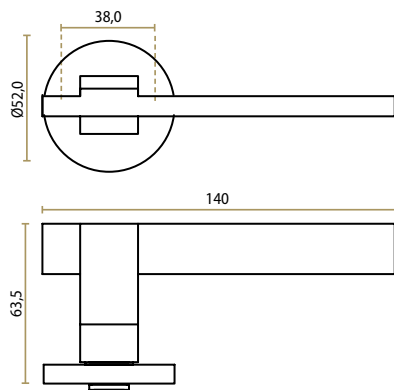

Available in Aged Gold, Aged Bronze, Old Silver, Black.
