

# HINGE TEMPLATE

FOR: AGB ECLIPSE  
ARGENTA INVISIBLE  
NEO CONCEALED HINGES

Fast and efficient installation using  
247 Wood Router Jigs

## What?

The template frame sets up the position of the hinges on the door & frame allowing for consistent measurements. The various model templates slot into this frame including concealed hinges and FORMANI 89 x 89 butt hinges.

## Easy and Fast

These invisible hinge mills are made from a quality technical plastic and can be used loosely as well as on a rail. By means of a steel insert you can fill in both the deepened part and the sight part in a fixture, this saves time and reduces the chance of errors.
